

Men's Section Competition Entry

Procedure & Rules for entering Sunday Competitions

- Each entry sheet will be displayed on the board for a minimum of 3 weeks prior to the draw taking place. Sheet will show Name, Format, Entry Fee & Closing Date
- Please write your name clearly in space provided (BLOCK CAPITALS)
- The entry sheet is divided into 4 sections (Time Based) please place name in column in regards to your preferred tee time
- If for whatever reason you can't make your tee time please contact the Pro Shop to cancel ASAP. This is a requirement not optional

Rules

- All members are required to enter competitions via the entry sheet prior to the competition draw taking place
- Only on the odd occasion is it acceptable for players to ring the pro shop and enter a competition if circumstances have not enabled them to enter via the official entry sheet.
- If for whatever reason a player enters via ringing the pro shop they will be offered a cancellation space and not automatically be put in a group of their choice.
- It is not acceptable for groups of players to frequently enter competitions with the players & at a time of their choice. This will be monitored by the committee and persistent offenders may only then be able to enter competition via the official draw sheet.
- All players must hand in their card at the end of the competition as it effects the CSS (Competition Scratch Score) This will be checked against the start sheet.
- The above rules will be strictly enforced for all Board competitions.

Note - This in no way is meant to deter people from entering competitions but to ensure it is fair for ALL. We understand that it is not always possible to enter comps via the board for work / family commitments etc where possible we will always accommodate members for such instances where several people travel together etc

If any member feels that they have a legitimate reason as to why they are not able to comply with the above rules please contact either the Captain or Comp secretary
